Beacon Pay

Payroll that closes in minutes, not days.

Beacon Pay runs payroll, contractor payments, and multi-state tax filings for growing teams — with an approval flow your finance lead will actually enjoy and same-day correction runs when life happens.

Trusted by 2,300 companies · 96% switch in under two weeks

One-click compliance

Federal, state, and local filings in all 50 states are prepared, paid, and archived automatically. New state registration happens in-product the first time you hire somewhere new.

Real-time cost visibility

Every pending run shows fully-loaded cost by team, project, and entity before you approve it — no more surprises when the ledger syncs on the 1st.

Humans on call

Every plan includes a named payroll specialist. Median response time last quarter was four minutes — measured across all plans, not just enterprise.

SIMPLE, PUBLIC PRICING

Pick the plan that fits this year — switch any time

STARTER

$39

per month + $6 per person

SCALE

$249

per month + $12 per person

- Multi-entity & multi-currency payroll
- Custom report builder with API access
- SOC 2 reports and audit workspace
- Quarterly compliance review session

FREQUENTLY ASKED QUESTIONS

How long does switching from our current provider take?

Most teams finish in five to ten business days. We import your year-to-date figures, run one shadow payroll beside your old provider, and you approve cutover only when the two match to the cent.

What happens if a filing is wrong?

If Beacon Pay makes a filing error, we pay the penalty and interest, file the amendment, and tell you before the agency does. That guarantee is in the contract on every plan, including Starter.

Can we pay international contractors?

Yes — contractors in 41 countries can be paid in local currency on the Growth and Scale plans. Beacon Pay handles the exchange and produces a single reconciled ledger entry per run.

Is there a long-term contract?

No. All plans are month to month, and you can export every record — payslips, filings, and journals — at any time in standard formats.
