STONEBRIDGE GROWTH PARTNERS

Fund III — Regional Manufacturing Renewal

A summary prospectus for qualified investors

CONFIDENTIAL · ISSUED APRIL 2026 · SUPPLEMENT NO. 1

INVESTMENT THESIS

Stonebridge Growth Partners invests in family-owned precision manufacturers at the moment of generational transition. Across the upper Midwest, an estimated 3,100 machine shops, toolmakers, and specialty fabricators are led by owners over the age of sixty, most without an identified successor. These are profitable, quietly indispensable businesses — suppliers of record to aerospace, medical-device, and grid-equipment programs — whose order books routinely extend further than their ownership plans.

Fund III continues the strategy of its predecessors: acquire controlling interests in eight to eleven such companies, retain and incentivize the operating teams, and invest in the automation and certifications that unlock the next tier of contracts. We do not relocate plants, we do not pursue roll-up synergies at the cost of customer relationships, and we have never re-sold a portfolio company to a competitor of its own customers.

Funds I and II acquired fifteen companies on this model. Thirteen remain under Stonebridge ownership today; aggregate revenue across the portfolio has grown 9.4 percent annually since acquisition, and every plant operates in its original county. Two companies have been sold — both to their own management teams, financed in part by the fund, which we consider the thesis working as designed.

Fund III targets commitments of $240 million, with a hard cap of $275 million. The general partners commit a minimum of four percent of the fund's total. Detailed terms, risk factors, and audited track-record schedules appear in the full offering memorandum, which this summary does not replace.

KEY FACTS

TARGET FUND SIZE
$240M (cap $275M)

STRATEGY
Control buyouts, precision manufacturing

PORTFOLIO TARGET
8–11 companies, $8–40M revenue

GEOGRAPHY
Upper Midwest, 300-mile radius of Harwick

FUND TERM
10 years + two 1-year extensions

GP COMMITMENT
Minimum 4% of total commitments

FIRST CLOSE
Expected September 2026

This summary is furnished on a confidential basis to a limited number of qualified investors and does not constitute an offer to sell securities. Any offer is made solely through the Fund III Private Placement Memorandum. Past performance of Funds I and II is not a guarantee of future results. All companies, persons, and figures herein are fictional and presented for design evaluation only.

The Investment Committee

EH

Eleanor Hargrove
MANAGING PARTNER

Founded Stonebridge in 2014 after sixteen years operating her family's bearing works in Harwick, which she sold to its employees. Chairs the committee and leads succession negotiations personally.

DO

Desmond Okafor
PARTNER, OPERATIONS

Former plant director at two tier-one aerospace suppliers. Runs the fund's automation program; his retrofit playbook has been applied at eleven portfolio plants without a single lost customer qualification.

MR

Marta Reyes-Lindqvist
PARTNER, CAPITAL & FINANCE

Two decades in middle-market credit at Fenchurch Bank, where she built the equipment-finance desk. Structures every acquisition and manages lender relationships across the portfolio.

JT

Jun Tanaka
PRINCIPAL, RESEARCH

Leads sourcing and sector research. Maintains the fund's census of 3,100 regional manufacturers and the succession-signal model that has originated nine of the last eleven acquisitions.

FIRM MILESTONES

2014	Firm founded in Harwick; Fund I closes at $58M with seven family-office commitments.
2017	First management-led exit: Calder Gauge & Tool sold to its operating team at 2.3× invested capital.
2020	Fund II closes at $140M; automation retrofit program formalized under Desmond Okafor.
2023	Portfolio-wide AS9100 certification initiative completed; aerospace revenue share reaches 38%.
2026	Fund III launched; succession census expanded to cover six states and 3,100 companies.
